Examiner's Statement of Reasons for Allowance

1. Claims 3-20 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The prior art made of record fails to anticipate or make obvious the claimed invention. Specifically, the prior art fails to teach, in combination with the remaining elements as recited in claims 3, and 17:

The present invention is directed to a slot antenna mountable on the Hercules aircraft dorsal fin.

Regarding claims 3, and 17 Prior Art fail to specifically teach that the antenna element is integrated within the upper plate, and wherein the antenna element having a center prong, a first lower prong and a second lower prong, wherein the three prongs are substantially separated by a fiberglass plate; and the back-end of the antenna being adjacent to and connectedly grounded to the empennage, wherein the antenna element and the lower plate are separated by air, thereby producing a capacitor effect, and whereby the radio frequency signals will tend to radiate towards the grounded back-end of the antenna element and into the empennage area.

Claims 4-16 are allowed for depending on claim 3.

Claims 18-20 are allowed for depending on claim 17.

Art Unit: 2821

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
